DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 9-19, drawn to a method for manufacturing a thin film transistor of a field emission display, classified in class 438, subclass 153.
 - II. Claims 1-8, drawn to a thin film transistor structure for a field emission display, classified in class 257, subclass 72.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions Group I, and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the device can be fabricated with different method other than the method recited in group I or vice versa. For example, instead of forming a patterned poly-silicon layer on the substrate by patterning, the poly-silicon layer as claimed can be formed by forming the mask on the substrate with an opening and then depositing the poly-silicon layer on the opening. Such alternative process would not require the step of patterning.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
